Reference: Hunters Branch and Trib at Arlington Blvd – Stream Restoration Project, Fairfax County Stormwater Planning Project # SD-000031-304

Dear Owner/Resident:

This letter is to inform you that Fairfax County's Stormwater Planning Division has initiated the above referenced stream restoration project between Route 29 and Route 50 (Arlington Blvd).

To obtain the topographic, soil, and utility information needed to support the design, staff from the County's design firm, Stantec Consulting Services, Inc., along with their consultants (Pennoni Associates, Inc. and Terracon Consultants, Inc.) and subsurface utility coordination contractors (Survey and Mapping, LLC, Accumark, Inc., or UtiliQuest, LLC), will be working in your community over the next several weeks. This work may include surveyors bringing equipment onto property within the project area.

Please see the enclosed map for the general project limits. We appreciate your cooperation while these firms collect the required survey and assessment data.

As the stream restoration design progresses, the County will send additional letters with details about a public meeting where the design will be presented and questions can be addressed. For now, the project team is focused on collecting the initial survey and soil data needed for design.

If you have any questions or desire additional information, please contact me by phone at (703) 324-1016 or by email at Kenneth.Trinh@fairfaxcounty.gov

Sincerely,

Ken Trinh, Project Manager
Watershed Projects Implementation Branch – North
